

LadyCare Lifetime Ltd
B.A.W.P.* Trial results of Mn8 (Previously called LadyCare) ##

Background

Mn8 has been registered as a Class 1 medical device, and is proven to help alleviate menstrual pain. Mn8 represents a long overdue breakthrough in safe, drug-free pain management.

39 BAWP members have conducted their own trials since the Nottingham PDD (2002) with very positive results - 93% of returned questionnaires reported that Mn8 relieved the usual period pain. Please refer below:
